Prohibition that Does Not Prohibit!

A VERDICT.

WHERE CITY AND COUNTRY MEET.

We know what the Towns and Cities of Alberta think of the effectiveness of Prohibition. One word covers it—FAILURE.

What is the verdict of the country?

Grain Growers' Guide, Oct. 3, 1923, editorial, page 4:

"For three years the prairie provinces have had as complete a system of prohibition as it seems possible to get at this time, and it has to be regretfully admitted that it has not given satisfaction as an enforceable law."

The whole editorial is Prohibitionist in sentiment, but frankly admits the failure of Prohibition. It hurts the Editor to say it, but he sees the facts and is honest in admitting them.

There is just one sane alternative, Clause "D" and Government Control.

Vote "D" and make it FIFTY THOUSAND Majority! Register! Register! Register! No Registration, No Vote!

Judge Calls Sleuth a Judas

Charged with inciting a man to commit a crime, E. Oliver, an employee of the Inland Revenue Department for 17 years, was strongly censured by Magistrate Brunton in the County Police Court in Toronto last week, and later freed on suspended sentence.

The case was a sequel to the prosecution and conviction of a man named Smith, a tinsmith, for possessing a still which, it had been disclosed, had been ordered from Smith by Oliver.

The latter submitted a design which Smith executed without knowing that it was a still he was making. Smith's shop was searched when the still was ready for delivery and Smith was charged with being in possession of a still.

Oliver was charged under a section of the criminal code which states that any man who incites another to commit crime is guilty of the same offense.

"The kind of language I'd like to see in connection with this case is hardly suitable

even for a Police court," Magistrate Brunton said.

"This man is only a few degrees above a brute. He incited people to commit crimes to make money out of public weakness. That any law, government or body of men will permit an act of that kind to stand on the statutes of the Dominion of Canada is a disgrace to civilization. Of course, if a man had been doing this deliberately and was found out, he should have been properly punished, but to have people incidentally going to the man's house to encourage him to make something is different."

Addressing Oliver the magist said: "You stand here convicted of one of the most contemptible of offenses man could be convicted of—the betrayal of his fellow man. You are a modern Judas Iscariot. While I have most profound contempt for a man who would do the work you do—you are a man of little intelligence and almost profound ignorance. It is the department and system that's to blame as much as you. It's simply damnable that such a state of affairs should exist in a civilized country."

Concluding he said he hoped the best interests of justice would be served by the publicity given and would mark the case "suspended sentence."

LOCAL NEWS.

Joe Miller motored up from Tofield on Sunday. His brother John has gone to Detroit.

Elmer Anderson and Cecil Umbach have gone to Bruderheim to work.

Mr. Brooks motored down to Vermilion on Tuesday.

Mr. Charles Ries, Vernon, B. C., is making a business trip to Stony.

Mr. J. E. Smith, well known here, has replaced Mr. Henry as night agent at the local station.

Contractor Mohr has secured the contract for building of a schoolhouse near Bruderheim.

Mr. Wm Robertson had his brother from Peace River visiting with him over the week end.

Mr. Opperhauser has removed his barn onto his lot on 1st ave.

Mr. Wm Best, Duffield, has been appointed by the Government as clerk to the returning officer. Mr. Ben W. Johnson has been appointed enumerator for the town of Stony Plain.

Judge Crawford was in Stony Plain last week to hold District Court, but owing to the busy season on the farms, the 4 cases called were adjourned till the January session of the court in Stony.

Price of grain is the same as printed last week.

A car of produce has been shipped in to the city, for the Concordia College students.

Solicitors for the Townsite Co are said to have notified the Skating Association to vacate its present site on Rail Road Avenue.

Mr. Schadeck has moved from Main Street to his new residence in Government Block.

The principal speaker for the Prohibition meeting billed at the Town Hall Saturday night was unable to be present, and the meeting was postponed till tonight.

A very good series of pictures were shown in Mike Ducholke's Hall on Sunday evening, under the auspices of the Young People's Society of the Lutheran church.

The case in connection with the alleged shooting of two horses near Edmonton Beach on August 19, was up in the Supreme Court, Edmonton, this week.

Monday's storm caused another delay in finishing up threshing operations in this district.

Air Boat Has Strange Mishap

Patrol of Forestry Branch Wrecked in
The Pas River

The Forestry Branch's flying boat, GCYED, employed in fire patrol work in The Pas district, Northern Manitoba, has been badly wrecked in a freak accident. No one was injured.

According to a dispatch received at Saskatoon, the machine, piloted by Flying Officer Harrop, accompanied by Sergt. Livingstone and Airman Crossy, was making a fast landing on glassy water. The surface was deceptive and the boat hit hard, striking sev-

eral times in a succession of high bumps. Owing to the proximity of buildings on shore, the boat was unable to overshoot. The alternatives were to crash into a motor boat loaded with women or to attempt a swing up the Pas River. The pilot chose the latter course, sinking one gasoline boat, wrecking another and demolishing a canoe. The collisions swung the nose of the boat around preventing it bumping into the shore. The machine, an HS3 L Curtis, had made 34 successful flights this season.

Chicken Ranching in Alaska

Chicken ranching is very popular in Alaska, both the long days and nights present difficulties.

To overcome this it is necessary to darken the coops between eight at night and eight in the morning in the summer and to light them artificially in the winter, or otherwise the birds absolutely refuse to lay.

France Has Many Unseaworthy Ships

Men Refuse to Sail on Freighters
With Bad Reputation

French freighters of a certain type have earned such a bad reputation among seafaring men that they sailors are refusing to go to sea on them, while naval draughtsmen declare they should be taken out of service altogether.

Twelve such vessels were built by the government during the war. Their holds are clear, with no bulkheads, which permits the sudden shifting of cargo, and their water ballast tanks have a trick of filling unexpectedly. Five of them already have turned over. The last was the Emile Durant, which rolled over without warning and drowned 19 members of the crew.

Nevertheless, some sailors are occasionally found, from time to time, who will take a chance, so several of the craft are still at sea.

Pine Air is Good

For Catarrh, Colds

Dwellers in pine forests never have colds, never know the meaning of catarrh. Upon this fact based "CATARRHOZONE," which sends into the lungs and nostrils the healing balsams and soothing antiseptic of the pine forest.

The health-laden vapor of "CATARRHOZONE" subdues the worst of coughs, colds and catarrh.

The tiniest corners of the lungs are treated. For afterward part of the bronchial tubes are reached, every cell in the nose and throat is bathed in the antiseptic balsam of CATARRHOZONE. Simply invaluable is CATARRHOZONE because so safe, so effective, so sure to stop hackiness, whooping cough, catarrh, nose colds or bronchitis—*it's your life!*

Complete two months' treatment guaranteed, price \$1.00; small (trial) size 50c. At all druggists. Refuse a substitute for CATARRHOZONE. By mail from The Catarrhozone Co., Montreal.

Public school teachers of Weatherford, Texas, have been forbidden to dance or play cards, on penalty of losing their positions.

PAIN IN THE JOINTS

Is An Indication That the Blood Is Thin and Watery

The first sign of rheumatism is frequently a pain and swelling in one of the joints. If this is not treated through the blood, which is the seat of the disease, the poison spreads, affecting other joints and tissues—sometimes rheumatism attacks the heart and is fatal.

A remedy that has corrected many cases of rheumatism is Dr. Williams' Pink Pills. These pills enrich and purify the blood so that the poisonous rheumatic matter is driven out of the system as nature intended. Miss Gertrude Denne, Washago, Ont., was attacked with rheumatism and found relief through Dr. Williams' Pink Pills. She says: "About a year ago I was afflicted with rheumatism and found it almost impossible to get about. The weeks were confined to my bed. The trouble was so painful, affecting the joints of my limbs so that I could not stand alone. Mother had a box of Dr. Williams' Pink Pills in the house and thought they might help me. I began taking them, and when I had taken these pills got a further supply with the result that the rheumatism vanished and I was a well girl; may add that my mother and two of my sisters have also used the pills for various ailments with equal success, and now we are never without them in the house."

If you are suffering from any condition due to poor, watery blood, or weak nerves, begin taking Dr. Williams' Pink Pills now, and note how your strength and health will improve. You can get these pills through any dealer in medicine, or by mail, at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Not Affected by Electric Shocks

Among individuals having extraordinary resistance to electric currents was Lord Kelvin, who is said to have startled the crowd at a railway opening by grasping bare-handed a copper conductor carrying 500 volts. No harm resulted, his immunity being attributed by him to quite unusual dryness of the skin.

As a vermifuge an effective preparation is Mother Graves' Worm Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.

A fish found in Brazil has neither a tail fin for propulsion nor a back fin for balancing it; it swims at great speed by means of a rippling movement of its large lower fin.

Outlook For World Wheat Supplies

Buying Power of Europe to be Factor
In Disposal of Surplus

The crops in Western Europe are considerably in excess of last year's and about equal to those of the pre-war period, says the National Bank of Commerce in New York.

Continuing, in the October issue of Commerce Monthly, it states that:

"The partial restriction of agriculture in Russia and expectation of a record wheat crop in Canada, together with an assured crop and restricted purchasing power in Western Europe, have combined to provide a supply of wheat for the 1923-24 harvest year which promises to be somewhat heavier in relation to prospective demand than the crops of the two preceding years. Any estimate of the net world surplus of wheat must be a rough guess at best, for it is subject to many and conflicting influences. Some of the indicated surplus for the current year would be absorbed if European purchasing power approximated prior standards. Per capita consumption in Europe is undoubtedly low and its restoration will be a slow process. On the other hand a continued low price of wheat should enable consumers to purchase considerably larger quantities for the same outlay of money than at any time since the war began."

On a conservative estimate, total world imports are likely to range between 500 and 600 million bushels.

Continuing the bank says:

"Stocks are too small in Europe, a fact which accentuates the effect of a large world carry-over upon the market. Prior to the war European importing countries were accustomed to buy heavily just after harvest, and any surplus there was at the end of the year was widely disseminated, much of it in hand close to the winter consumption. At present, financial conditions and the fluctuations of exchange have forced these countries to purchase largely on a hand-to-mouth basis, thus leaving a larger proportion of the surplus in exporting countries where its existence and amount can be more readily determined."

The Oil of Power.—It is not claimed for Dr. Thomas' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

Man Best At 53

Tidal Wave of Infantine Genius Is Now Receding

There has been a marked reaction in recent years against the "too old at forty" idea. The Standard Oil Company has come to the conclusion after a thorough study of its experience as an employer, that the average man is at his best at the age of fifty-three. The New York Daily News-Record declares that this is in keeping with the testimony of other great corporations. Business men, it says, have found that mature judgment has a cash value which did not use to be conceded to it. "Fads," it concludes, "sweep over the land and the sea. The history of boy emperors is not exhilarating. The tidal wave of infantine genius is now receding."—Edmonton Journal.

No one need endure the agony of corns with Halloway's Remover at hand to remove them.

A man's opinion of himself doesn't necessarily increase the circumference of his headgear.

Severe Kidney Trouble

Mrs. F. Rinehart, Campbellville, Ont., writes:

"I had trouble with my kidneys and very frequent urination. This was followed by pains which at times were very severe. The doctor said I had inflammation of the bladder and that an operation might be necessary. To this I refused, and began using Dr. Chase's Kidney-Liver Pills. From the first few doses I felt the benefit. The pains left, urination was corrected, and I have had no recurrence of these ailments."

Wonders Of King's Domains Are To Be Assembled At The British Empire Exhibition

(By Sir John Foster Fraser)

There are dates which stand out boldly in the story of our race, the coming of William the Conqueror, Magna Charta, the birth of Shakespeare, the death of Nelson, Waterloo, the outbreak of the Great War. Next year, 1924, will go down through history as Empire Year.

A strange, unparalleled thing is our Empire which came into existence almost as an accident, which is held together by no written code, but by the silken thread of loyalty to the Crown and the affection of brothers scattered throughout the world. I am old enough to remember when home-staying Britons regarded what were called the Colonies as something of a nuisance and with no regret at the prospect of the time when they would break away from the old house and fend for themselves, but I am proud to have lived to see them advance from being the children of Britania to busy, adventurous, progressive grown-up sons, independent Commonwealths, Dominions, Union, co-equals with ourselves in the Empire. Home, with all its pomp, had not a title to show compared with the wonders of the British Empire.

Next year we will celebrate the unity, the solidarity of the Empire. Staid, slow-moving, but shrewd John Bull is preparing to give greeting to the strong limbed men of Canada, the sturdy sunburnt happy Australians, the slim energetic and experimental New Zealanders, the men who are making South Africa prosperous, the men of the Crown Colonies and the innumerable possessions scattered throughout the seven seas, the sons of gorgeous India, men of many races and religions, but living in freedom under the Union Jack.

At Wembley, within the great heart-throb of our race, called London, the sands of men are rolling day and night erecting a huge caravanserai where not only will be exhibited the best the Empire has to show, but where all the Briton, far-separated, making new lands fruitful, will meet, many of them for the first time, and look into each other's eyes and know that however distant they may live from each other, they are brothers.

We want to see these men and women of our own blood whether they come from the great cities like Montreal and Sydney, from the prairies or the back-blocks, from our dependencies in the east or the islands of the Pacific; and we want them to see us.

If there be a lingering sentiment amongst our overseas brethren, as I sometimes believe there is—that there is any superciliousness on the part of the Englishmen to those who live in Canada, Australasia or elsewhere, we are going to show them how wrong they are. We have the reputation of being generous in hospitality to the stranger without our gates. How then shall we treat our own brothers? There is plenty of evidence that next year London will surpass itself in the exuberance of its hospitality.

"How little they know of England who only England know," is a line that will be quoted at many a banquet. It is true. But there is a gathering wave of patriotism and an eagerness to better understand what the Dominions signify in the Empire. We will joyously extend our knowledge. Visitors will get acquainted with each other. We will visit the great halls at Wembley which will present a panorama, a pageant indeed of productivity. And all of us will feel a thrill of pride in the achievements of each other. Therefore 1924 will be remembered as the great year, when, in London, most that the Empire stands for was revealed, and all parts will be drawn together to heartfelt appreciation. Whilst each of the countries will arrange its own affairs there will evolve a higher realization of the interests we have in common and the interdependence we have with each other.

In these practical days there is no magician's carpet on which to waft people from the other side of the Atlantic or the antipodes to England. But all shipping companies are making special arrangements to carry hundreds of thousands of pilgrims to

England. In the far northwest of Canada and beneath the hot sun of Queensland, I feel there are men, yes and women too, who have never seen England and yet love to call it "home" who are beginning to have the great desire to visit the homeland, to see what their own part of the Empire has to show the other parts and a consciousness they will be amazed at the assembled wonders of the King's Domains.

For long we have celebrated Empire Day. Now we are getting ready to celebrate Empire Year. Wembley will not be an exhibition of the triumph of war. It will be the most wonderful exhibition the world has ever seen of nature's bountifulness, of enterprise, of all that has been accomplished by men of sterling British grit.

Natural Resources Bulletin

How the Forests Contribute to Our Telephone Service

The Natural Resources Intelligence Service of the Department of the Interior at Ottawa says:

Of the 344,023 telephones in use in Canada in December last, the three prairie provinces had 220,390, Manitoba having 67,514, Saskatchewan 96,195 and Alberta 66,581. Ontario, of all the provinces, has the greatest number, 405,619. These figures, however, have but slight bearing upon the service which one of our chief natural resources—the forests—is rendering to telephone users in the different provinces. A bulletin recently issued by the Dominion Bureau of Statistics, gives the number of pole line miles covered by Canada's network of telephone service. Of a total pole mileage of 184,147, the prairie provinces use 107,938 pole miles, showing the long distances which separate the users in the western provinces as compared with Ontario which has a total of but 47,176 pole miles.

In the construction of telephone lines an average of 40 poles are required per mile; the number of poles in use at the end of December was therefore 7,265,880. As each pole represents a tree it will readily be seen to what extent the forest is contributing to this necessary service. For this reason alone, therefore, the forest deserves protection from fire.

Knew What Smudge Was For

Pack horses used in the Canadian survey party which mapped the land north of Athabasca Landing, Alberta, did not need to be taught what a smudge was for. The moment it was started they crowded up into the smoke to escape the tormenting fumes. This made it easy to round them up for the next day's journey.

An Advanced Fall Model

A smart dinner frock for midsummer wear in this yellow crocheted Romaine model with bands of brocade velvet and circle of same.

Diversified Farming

Cows and Hens Sometimes Worth More Money Than Wheat

Some all-weather producers apparently would not know a dairy cow or a Lephorn hen if they saw one. But Secretary Mohler's figures show that last year the products of the cow and the hen in Kansas were worth over \$90,000,000. The farm value of wheat of Kansas this year is \$61,900,000 and of North Dakota less than \$57,000,000; therefore, the wheat farmers are facing hard times. "Would not more well-bred hens and dairy cows on those farms, and a reasonable crop of diversification, be worth more than reams of reports and efforts to reduce railroad freight rates?" Wall Street Journal.

Chinese Like Joy Riding

Speed in travel appeals to the Chinese and thousands of Chinese take joy rides simply for pleasure. It is no uncommon thing for a poor coolie to spend his last "cash" on an automobile ride that leaves him stranded many miles from home. He is glad to trade back complexity and is satisfied in his own mind that his money has been well spent.

Though forced by illness to abandon his previous attempt to fly around the world, Captain MacMillan is now preparing for another try in the spring of next year. Dumps of stores and equipment are now being laid in outlying Pacific ports.

Prairie Provinces Of Canada Supply High Grade Seed Wheat For Growers Of Southern Climes

(By P. Stewart, Secretary Canadian Seed Growers' Association)

Productivity, purity and vitality are the essentials looked for in good seed. On account of Canada's northern latitude and rigorous climatic conditions combined with immense tracts of rich virgin soil, Canadian grown seed of any given kind or variety when planted in a southern latitude is known to yield a bigger crop of better quality than does seed of the same kind or variety produced in the southern latitude. Of recent years this phenomenon has been capitalized by potato growers in the South-Atlantic States. These growers usually obtain a large portion of their seed potatoes from New Brunswick and Prince Edward Island. Grain-growers and seed firms from south of the Canadian boundary look to the prairie provinces of Canada for much of their high-class seed grain supply.

But not until now has Canadian pedigreed seed found its way in commercial quantities to another continent. The S.S. Hesperia, which sailed for Buenos Aires recently, carried 500 bushels of registered Marquis wheat produced by a member of the Canadian Seed Growers' Association in Saskatchewan and exported from Montreal.

This variety of wheat is Canadian-bred of imported parentage, the parents being Hard Red Calcutta from India and Red Fife from Germany. The originator of Marquis, Dr. Charles E. Saunders, first placed Marquis at the disposal of Canadian grain growers in 1907. Now 90 per cent. of the Canadian spring wheat crop is Marquis. Two years ago it was estimated that some 12,000,000 bushels of the United States spring wheat crop belonged to this variety.

By the educational and control work of the Canadian Seed Growers' Association, extending back over a period of twenty years, the most promising strains of various kinds have been pedigreed and multiplied in their purity. Superiority of pure-bred seed is obtained and maintained by:

1. Approval and acceptance of varieties based on extensive plot tests by plant breeders at Government stations throughout the Dominion. Only those varieties of proven outstanding merit are accepted for registration.
2. Careful inspection and scoring of seed fields by trained inspectors.
3. Testing of seed from approved fields for purity and germination by Dominion Seed Laboratories.
4. Final inspection, grading, marking and sealing of seed at growers' premises or central cleaning plants.
5. Careful recording under registration numbers of all eligible seed stocks each year.

Production of registered seed for the season 1923-24 in the prairie provinces amounted to some 80,000 bushels. This amount is not nearly sufficient

to meet the demand, and consequently provision is now being made for production of this class of seed in greater volume in order that not only may home requirements be filled, but that the growing demand from foreign countries may be met to some extent.

The Argentine shipment will be followed through the Commercial Intelligence Service Branch of the Department of Trade and Commerce, and it is expected the performance of this seed in Argentina will lead to increased purchase of Canadian seed by grain growers of the Southern Republic.

During recent years red clover seed produced in the Dryden district of New Ontario has been giving exceptionally good results wherever used throughout Canada. The findings of private farmers in this connection have been confirmed by growing tests carried out at the Central Experimental Farm, Ottawa, and at branch farms elsewhere in the northern latitudes.

The success attained by this seed has created an active demand for it, especially from the better class dairy farmers of Ontario. During the past season the local Co-operative Association of Seed Growers at Oxford, consisting of some seventy-five active members, cleaned and sold for Canadian consumption some \$30,000 of clover seed.

When it is remembered that Canadian clover seed imports for the three years ending March 31st, 1923, totalled 8,293,470 lbs., valued at \$1,735,065; that Northern Ontario can produce a strain of clover seed infinitely better adapted to Canadian conditions than the imported seed; that the home demand for clover seed is steady at good prices—it will be appreciated that in clover seed production a golden opportunity yet awaits New Ontario farmers who will seriously undertake this phase of agriculture.

Tourists Help The Farmer

Country Reaps Financial Benefit As Well As City

Occasionally the farmer asks what benefit the automobile tourist traffic is to him. His first judgment usually is that the cities and towns get all the money and he is still struggling along without any return direct or indirect from the extra traffic.

This conclusion is decidedly erroneous. If people in the cities and towns reap financial benefit from any source it simply places them in a position to buy more of the goods than they need. Food and clothing are the commodities into which the greater part of the average individual's earnings go. The farmer gets the largest share of the money spent on food and that commodity takes the heaviest toll from the city dwellers' pay envelope. If motor tourists from the United States spend money anywhere in the Dominion of Canada it circulates new cash and the farmer will get his share. If they spend it in the province of Ontario it will bring the cash still nearer the Ontario farmer.

If they spend it in his own market town the people of that place will have more cash with which to buy his beef and pork, his corn, tomatoes and hay. The farmers ought to welcome the tourists enthusiastically.—Sarnia Canadian Observer.

Commodity Rates On Vegetables

Revision of Express Rates on Vegetables Is Refused

A judgment of the railway commission, just issued, denies the application of certain business firms in Medicine Hat and Calgary, Alberta, for a revision of express rates on vegetables moving east from these points, to accord on a distance basis with rates on these commodities to force eastward from British Columbia points. The same judgment also denies the application to advance by one month the period of special commodity rates on vegetables from Vancouver to Winnipeg, which is now in force from May 15 to November 30.

In former times it was regarded as very unlucky to plant a bed of lilies of the valley, as the person doing so would probably die in the course of the next twelve months.

IS "13" UNLUCKY?

Ask Mr. Toomath. With part of his family of twenty-one he recently migrated from Ireland to Canada. There were thirteen of them aboard the Canadian Pacific B.S. "Marburn" and the same thirteen sat three times a day round a Canadian table. Mr. Toomath considers himself lucky—in that his elder children can care for themselves—and Mrs. Toomath is that she has not thirteen more to care for. In any case they are fortunate in their choice of Canada as a country in which to bring up the little ones.

with the Author

With the foresight to be expected of one of his type he, too, homesteaded north of Winnipeg, in—the bush country between the two cities. He had a small hospital on buildings and an outfit. I should think that his people had been in fairly comfortable circumstances before the war, but no doubt they were starved before the army of their class. At any rate, it had apparently been Dickie's firm intention to make good—and if he had stayed in the country he would probably have done so. But he had been told, he told us, more than enough wood on "Herrington's land." But as for the clearing of the slope? "Pay for a wheat farm! It had not been done," he explained. "It did not cost anything and I've had three years experience, so, as you say over here, 'I should worry.'"

And now he wanted to go back to the English coast, he had been told. "I will return and take a place in the business left vacant by a brother who had been killed in East Africa, and he

Hemford, N. S.—“I am the mother of four children and I was so weak after my last baby came that I could not do my work and suffered for months until a friend induced me to try Lydia E. Pinkham's Vegetable Compound. Since taking the Vegetable Compound my weakness has left me and the pain in my back has gone. I tell all my friends who are troubled with female weakness to take Lydia E. Pinkham's Vegetable Compound, for I think it is the best medicine ever sold. You may advertise my letter.”—Mrs. GEORGE I. CROUSE

Glen Allen, Alabama.—"I have been greatly benefited by taking Lydia E. Pinkham's Vegetable Compound for my bearing-down feelings and pains. I was troubled in this way for nearly four years following the birth of my first child, and at times could hardly stand on my feet. A neighbor recommended the Vegetable Compound to me after I had taken doctor's medicines without much benefit. It has relieved my pains and given me strength. I recommend it and give you permission to use my testimonial letter."—Mrs. IDA RYE, Glen Allen, Alabama.

CHAPTER TEN

I am glad I had those four days in which to discuss the situation with myself, for I knew that I must not let Murray suspect that I was anything but enthusiastic. The feeling that in one sense, he was a failure as the head of a family was bitter enough to him without my adding to it by the admission of my misgivings.

"You can stand anything for two or three years, Margaret Anne," I told myself. "You will have Murray and the children, and unless you are prepared to disgrace the family potato-kettle you had better buck up."

Then I would bring all my carefully cultivated imagination into play, aided by Mr. Herrington's photographs, would picture Murray stroking and well once more, the children sturdier than ever, and myself the mother

Famous Choir From Rome Will Tour
Canada and U.S.

Absent from the immediate jurisdiction of the Pope for the second time

sixteen centuries, the Sistine Chapel Choir of Rome has reached New York for a tour of Canada and the United States.

Only once, when the Pope sanctioned a short concert tour through Australia, has the Sistine Chapel choir left the immediate vicinity of the Vatican since it was founded in Rome shortly after 300 A.D.

Mother! Give Sick Baby
"California Fig Syrup"

**Harmless Laxative to Clean Liver
and Bowels of Baby or Child**

Even constipation, colic, flatulences, feverishness, teething, diarrhea, worms, and other ailments of the infant are relieved by the use of **Babies and Children love to take genuine "California Fig Syrup."** No other laxative regulates the tendency to the little bowels so nicely. Sweetens the stomach and starts the liver and bowels acting without griping. Contains no narcotics or soothing drugs. Say "California" to your druggist to avoid counterfeits. **Fig Syrup** contains directions.

**Pyramidal Effect of New Building
Will Be More Artistic**

The New York Building Zone regulations have forced architects to design a pyramidal style of architecture for the new skyscrapers. There are no exceptions. In the zone of greatest allowance, the building may rise two and one-half times the width of the street before it begins to slant inward; in the zone of the lowest allowance, one-third the width of the street. The pyramidal effect of the new buildings is most interesting; architecturally they are much more pleasing than the old straight front, and people in the street are able to see the sun for several hours in the day.

A Slump In Shopping

There was a tremendous slump in shopping in New York City recently, and the merchants attribute it to the fact that the pressmen's strike suspended the publication of several of the newspapers. If you are suddenly attacked with diarrhoea, dysentery, colic, cramps or pains in the stomach or any looseness of the bowels do not waste valuable time but at once procure a bottle of Dr. Fowler's Extract of Wild Strawberry and see how quickly it will relieve you.

Mrs. Ernest Morris, 3 Webb St., London, Ont., writes:—"I take great pleasure in recommending Dr. Fowler's Extract of Wild Strawberry for what it has done for me."

Some time ago I took an awful violent headache, then started to vomit and felt so sick I could hardly stand it all day; towards evening intense pains came in my bowels and I was just doubled up the pains were so bad; the perspiration stood out like beads on my forehead; then the diarrhoea started and I really thought I was going to

My husband went to the drug store and got a bottle of Dr. Fowler's Extract of Wild Strawberry; he gave me four doses, at intervals, and by noon next day the diarrhoea had stopped and the pain was all gone too.

Now I will never be without 'Dr. Fowler's' in the house."

Price 50c a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

A Chinese Industry

Nine years ago, in 1914, China exported \$719 worth of hair nets. Last year the net makers, virtually all of whom are located in Chefoo, China, collected \$3,319,322 for supplying this product. An even larger trade is expected during 1923 because American women have demonstrated a preference for a type of net made out of two hair strands, whereas before nets fabricated from single strands

Four Year Contract Fixed By Farmers For Manitoba Pool

Winnipeg.—A resolution expressing preference for the principle of a one-pool system, with a selling agency for the three provinces, was passed practically unanimously at a conference of members of district boards of the United Farmers of Manitoba held here. The resolution, while expressing preference for the one-pool system, was not in any way opposed to cooperating in the present system of a pool for each province.

A discussion took place on the wheat pool contract, the clauses in which were referred in detail and general agreement expressed with the form of contract. The agreement provided for the signing up of 33 1/3 per cent of the acreage by April 1, instead of in the fall, as in the case of the Saskatchewan contract, and it will be for four years, so that it will terminate with the latter agreement, which runs five years from this season, the Manitoba one commencing next year.

Former officials of the United Grain Growers now hold three of the key positions on the staff of the pool, Canada's first provincial co-operative wheat marketing concern.

Russia Summons Troops

Has Called Up Three Classes For Army Training

Moscow.—Soviet Russia has called up the three territorial classes of 1898, 1899 and 1900 for territorial army training. Simultaneously there appeared in the official newspaper, *Isvestia*, a striking cartoon, depicting a stern-faced Red soldier watching the Polish border with the peltion, "They are risking it to pass the frontier of my patience."

The calling up of the territorials is in line with the long-contemplated militia training plan, and probably has no particular significance, but it is obvious from declarations made on all sides that the "Moscow" Government, while seeking to avoid participation in the German struggle, is nevertheless taking no chances that it will be unprepared for eventualities.

British Ships Will Visit Canada Soon

Biggest Battleship in Navy to Make Empire Tour

London.—The battleships Hood and Repulse, with a light cruiser squadron, will sail about the middle of next month on an Empire tour. They will proceed by way of South Africa to Singapore, thence by way of Australia and New Zealand to British Columbia, where they will probably arrive about June. From British Columbia the Hood and Repulse will proceed through the Panama Canal to Halifax and Quebec, the light cruisers visiting South America.

It is expected calls will be made at several United States ports en route. The entire cruise is planned to take about 10 months. The Hood is the biggest battleship in the navy, and represents the last word in naval construction.

Plenty of Work

Three Thousand Jobs Are Offered By Farmers For Winter Work

Winnipeg.—Three thousand applications from farmers of Western Canada for help for late fall and winter work are at present in the office of the Immigration Department here. Thomas Gelly, western commissioner of Immigration, stated, Mr. Gelly said also that 1,200 British harvesters had been placed on the farms for winter work.

Wages offered for winter work range from \$10 per month to \$20 and \$25, the higher rate being for men with some experience.

Professional Women Train As Domestic

Hundreds of British Girls Preparing to Come to Canada

Ottawa.—Prospective of their previous occupation, many of them being teachers, private secretaries, stenographers and some even of aristocratic birth, hundreds of British girls are preparing themselves to come to Canada as domestics next year. Hon. Mrs. Mary Ellen Smith, M.L.A., Vancouver, reported on her return from Great Britain, where she has been investigating general emigration possibilities on behalf of the Canadian Government.

Germany May Be Drawn Into A Civil War By Saxony's Attitude

Attempt to Rob B.C. Bank

Bandits Escaped After Unsuccessful Attempt to Blow Door

Greenwood, B.C.—A daring attempt to rob the Bank of Montreal here was made by several bandits, who, after cutting all telegraph and telephone wires, made an unsuccessful attempt to blow open the door of the vault on the bank premises. The door, however, held. The bandits were disturbed by a citizen, who was fired at by one of the robbers, and made good their escape in a high powered car.

Berlin.—Events in Saxony are fast drifting to a point where the Berlin Government will be forced to call for a showdown with Dr. Zeigler's Communist-Socialist ministry, which is daily becoming bolder in its defiance of the central government's authority, as decreed in the existing state of emergency, and asserted by General Von Meuller, the military commander in the fourth army precinct.

The position of President Ebert and Chancellor Stresemann in the present situation has been made very complicated through the action by the United Socialist party's governing board, which demands immediate abrogation of the existing state of siege in order that "the legal relations between individual federal states and the central government shall be restored."

With two notorious Communists like Heinrich Brandler and Herr Boettcher occupying the posts of directors of the chancellery and minister of finance, respectively, Saxony industrialists and financial leaders declare that the states economics are wholly exposed to the arbitrary dictates of outspoken Bolsheviks, whose presence in Zeigler's cabinet suffices to nullify the less radical attitude of the Socialists toward industry and finance.

Financing Export Of Russ Grain To Europe

Company Is Composed Of Russian and British Interests

London.—An agreement was signed in London for the formation of a Russo-British grain export company, the Russian trade delegation announced. The company will be composed chiefly of Russian and British interests—on the Russian side, of representatives of governmental and co-operative organizations, on the British side, of the Co-operative Wholesale Society and grain and shipping firms. The purpose is to finance exports of Russian grain to Europe generally. Leading British banks are prepared to finance the scheme up to £1,000,000, it is stated.

Ladies Remove Their Corns In A Very Simple Way

No pain, no trouble, costs only a quarter. It is a very simple thing to paint on a small application of good old "Putnam's" night and morning. To remove corns, to get entirely free from them, use Putnam's Corn & Wart Extractor. It is guaranteed. See at all dealers. Refuse a substitute.

Stinnes, Jr., Coming to America
Hamburg.—Hugo Stinnes, Jr., sailed on the steamer Resolute for New York. It was announced that his visit to the United States was for "information purposes."

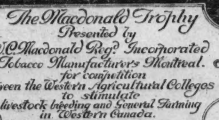

Dr. Otto Ludwig Wiefel, the German ambassador at Washington, also sailed on the Resolute to resume his diplomatic post.

Bronze Trophy For Livestock Competition In Four Western Provinces

Symbols of the livestock which once roamed the Western Prairies in uncounted thousands, the magnificent bronze trophy for which livestock judging teams from the four western provinces will compete in the Royal Winter Fair in Toronto next November, is a prize which will be eagerly sought. But the trophy is in itself only a visible sign of what is at stake in this competition. The terms under which it is offered mean that each of the four western provinces has an opportunity now and every year, an opportunity which was never before placed within such easy reach, to carry off judging honors at the International Livestock show, the premier exhibition in America, that held in Chicago in December. For whichever provincial team may win the trophy at Toronto will be given a trip to Chicago, all expenses being provided for by the donors of the trophy, where it may match its judgment with that of America's foremost experts in livestock.

The primary object in the minds of the donors of this splendid trophy, W. C. Macdonald Reg'd, Inc., tobacco manufacturers of Montreal, is to stimulate interest in mixed farming and more particularly in livestock breeding in the west. This is a part of a policy laid down by the founder of W. C. Macdonald Reg'd, Inc., the late Sir William Macdonald, who, many years ago, recognized the need for stabilizing the west's annual income, insuring it against disaster which must occur from time to time where everything is staked on one crop, by promoting an interest in general farming, and by bringing back in a modified form and under better auspices, the old stock raising practices for which the west was once noted.

The late Sir William Macdonald labored unflinchingly with this end in view and gave vast sums of money to encourage the promotion of mixed farming on a scientific basis in the west. His successors, loyal to the traditions of their founder who will always be remembered as one of Canada's most generous friends of scientific and technical education, are continuing this task and the trophy illustrated above is but one example of their devotion

to the principles of the late Sir William Macdonald.

The trophy is offered for annual competition among the four western provinces. This is testified to by the coat-of-arms of the four provinces mounted at the four corners of the base, and by the plates upon which will be inscribed, from year to year, the names of the winning teams. It is, however, one thing to offer a trophy and another to place all competitors upon an equal footing for it. This was recognized, so in addition to offering the trophy W. C. Macdonald Reg'd, Inc., are also providing funds wherewith to defray the travelling expenses of the competing teams from their western homes to the Royal Show at Toronto and back home again.

Then, that Western Canada may have an opportunity to match her best judges with those of the United States, W. C. Macdonald Reg'd, Inc., will pay all expenses of the winning team to the show at Chicago in December.

The entire scheme is one which affords Western Canada an excellent opportunity to win world repute for its knowledge of livestock. In going to the Royal Winter Fair at Toronto the four teams will be afforded what will be in effect a post-graduate course in stock judging. They will go to brush up their knowledge and to extend it.

and so the winning team will go to Chicago particularly well qualified to make a name for itself. In a certain sense the contest at Toronto will be a final tryout, a sort of dress rehearsal, and it may confidently be expected that under such conditions the winning team will do full justice to itself when it meets America's best in the Illinois city.

Apart from the interest attached to the trophy by virtue of what its acquisition will represent, there is also the fact that it is one of the hand-somest bronze castings ever produced. It was cast by Messrs. Henry Birks & Sons, of Montreal, Winnipeg, Calgary and Vancouver, at their Montreal foundry and is the final expression of an artistic conception handled by skilled artisans. The magnificent Buffalo Bull is the first one-piece casting of its size ever produced in this country. It weighs in the neighborhood of eighty pounds and is mounted upon a handsome hand-carved oak base. An engraved plate identifies the trophy, and the crests of the four western provinces are delicately executed in enamel upon silver.

The trophy will be competed for annually. The Western College whose team scores highest in the main judging, event at the Royal Winter Fair will automatically possess the trophy.

TOWN OF STONY PLAIN.

Bylaw No. 93.

A Bylaw to provide for borrowing
by way of debenture the sum of Fif-
teen Hundred (\$1500.00) Dollars for
the purpose of building a Curling
Rink and Open Air Skating Rink in
the Town of Stony Plain.

WHEREAS it is desirable to build
a Curling Rink and Open Air Skating
Rink in the Town of Stony Plain on
the Agricultural Grounds owned by
the Town of Stony Plain;

AND WHEREAS the total cost
for the said purpose is estimated to
be the sum of Fifteen Hundred
(\$1500.00) Dollars, which said sum is
the amount of debt created by this
bylaw;

AND WHEREAS it is desirable
to provide for the cost of same by
the issue of debentures and to pass a
bylaw therefor;

AND WHEREAS the whole
amount of said indebtedness of said
debenture is to be paid in annual in-
stalments during ten years next
after the time when the same are
issued and the respective amount of
principal and interest payable each
year shall be sufficient to pay off
the debentures in full at the end of
ten years;

AND WHEREAS the total amount
of the existing debenture debt of
said Municipality is \$1318.00 being
Local Improvement debentures, no
part of which either for principal or
interest is in arrears;

AND WHEREAS the amount of
the whole rateable property in the
Town of Stony Plain according to
the last revised assessment roll of
said Municipality is \$81,405.00;

THEREFORE the Council of the
Town of Stony Plain duly assembled
Enacts as follows:

1. This Bylaw shall take effect on
the final passing thereof;

2. That debentures of the Town
of Stony Plain to the amount of
Fifteen Hundred (\$1500.00) Dollars
be issued for the purpose aforesaid
and that such debentures bear inter-
est at the rate of seven per centum
per annum payable in annual equal
instalments during ten years next
after the time when the same are
issued and the respective amount of
principal and interest payable each
year shall be sufficient to pay off
the debentures in full at the end
of ten years, the debentures shall be
payable at the Canadian Bank of
Commerce in the Town of Stony
Plain, and shall be in denominations
of \$100.00 each.

3. That the said Debentures and
all Coupons thereof shall be signed
by the Mayor and Secretary-treas-
urer of the Town of Stony Plain and
such debentures shall be sealed with
the Corporate Seal of the Town of
Stony Plain;

4. During the ten years of the
currency of the debentures the sum
of \$213.57 shall be raised annually
for the payment of the said instal-
ments of principal and interest by a
sufficient rate of General rate on all
the rateable property in the Town of
Stony Plain.

5. That the said Debentures be sold
and the proceeds thereof be expended
in or towards the construction of the
said works.

6. The Vote of the Burgesees duly
qualified to vote on this bylaw shall
be taken on FRIDAY, THE NINTH
DAY OF NOVEMBER, 1923, at the
Town Hall, Stony Plain, from the
hour of Ten O'Clock in the forenoon,
till the hour of Four O'Clock on the
afternoon of the same day.

7. That F. W. Lundy, Secretary-
Treasurer of the Town of Stony
Plain, shall be the Returning Of-
ficer to take and receive the said
Votes.

8. The Returning Officer shall at
F. W. Lundy's Office, Stony Plain,
on SATURDAY, the Tenth Day of
November, 1923, sum up the Number
of Votes for or against this Bylaw
and declare the result thereof.

Read a First and Second time and
passed provisionally in Council this
Fifteenth day of October, 1923.

P. CORMACK,
Mayor.
F. W. LUNDY,
Secretary-Treasurer.

NOTICE.

The foregoing is a true Copy of a
proposed Bylaw which has been in-
troduced and provisionally passed by
His Worship the Mayor and Council
of the Town of Stony Plain and
which will be finally passed by His
Worship the Mayor and Council in
the event of the assent of the Bur-
gesees being obtained thereto, which

said date is Friday, the Ninth Day
of November, 1923, and the place
and time for voting will be at the
Town Hall, Stony Plain, from the
hour of Ten O'Clock in the forenoon
till the hour of Seven O'Clock in the
Afternoon of the same day; of which
all persons are hereby required to
take Notice and govern themselves
accordingly.

DATED at the Town of Stony
Plain, Alberta, this Sixteenth Day of
October, 1923.

F. W. LUNDY,
Returning Officer.

For U.S. President?

When Henry Ford was asked by Montreal reporters if he would run for
President of the United States, he said, "I am not running for or
against anything", but when asked if he would accept nomination pro-
ffered, the motor car king replied:
"No one knows what they will do from one day to another."
Mr. Ford is here seen in conversation with Mr. Grant Hall, vice-president
of the Canadian Pacific Railway, at Windsor Station, Montreal.

Liquor Referendum

NOTICE TO VOTERS

Instructions to Voters as to Method of Marking the Preferential Ballot to be
used in the Liquor Referendum in Alberta on Monday, November 5, 1923.

Issued Under the Authority of the Government of Alberta.

THE BALLOT.

(a) Prohibition--

Meaning thereby, a continuance and development of
the present Liquor Legislation; that is, meaning the
Abolition of the Sale of all Liquors excepting for
strictly Medicinal, Sacramental, Manufacturing and
Scientific Purposes.

(b) Licensed Sale of Beer---

Meaning thereby, the Sale of Beer in Licensed
Hotels and other Premises, as provided in the pro-
posed Temperance Act.

(c) Government Sale of Beer---

Meaning thereby, the Sale of Beer by or through
Government Vendors for consumption in Private
Residences under Government Control and Regula-
tion—other Liquors to be sold through Doctor's Pre-
scription for Medicinal Purposes.

(d) Government Sale of All Liquors---

Meaning thereby, the sale of all Liquors by or thru
Government Vendors. Beer to be consumed on
Licensed Premises and in Private Residences. Wines
and Spirits to be purchased in limited quantities
under permit issued by the Government, under Gov-
ernment Control and Regulation.

INSTRUCTIONS TO VOTERS.

The Voter MUST NOT use the X mark. He should mark the figure 1 opposite
the question he wishes to become law. He should then mark the figure 2 opposite
the question he would select as second choice, the figure 3 opposite his third choice,
the figure 4 opposite his fourth choice. He must make no other mark on the ballot.
The Voter may "plump" for one question alone, using the figure 1, without spoiling
his ballot, or he may vote for only two or only three choices.

Voters are urged, however, to vote the full extent of their four choices. There
is always the possibility that the question of his first choice will not carry. In that
case he should have a second choice, and a third choice, and a fourth choice. Only
by marking the full number of choices does the voter obtain the full benefit of the
preferential ballot, and the government obtain a complete expression of the opinion
of the people.

AUNT JEMIMA PANCAKE FLOUR

Delicious!

"Life is too short to eat anything but Aunt Jemima's Pancake Flour."

Consider Flying Safe

Many life insurance companies, according to the Insurance Journal, no longer consider an aeroplane flight so hazardous as to invalidate a policy. The main restriction is that the policyholder shall fly only over an established route in a machine operated by a regular transportation company. The companies still bar casual flights with itinerant aviators.

Lest We Forget

The Debt We Owe to the Men Who Paid the Supreme Sacrifice in the War

Whatever Mr. Lloyd George's reason for undertaking his Canadian tour, he took the opportunity at Montreal to review the record of Canada and Canadians during the war. Needless to say he did justice to the subject, in so far as words can do justice to the sacrifice of the men who offered their lives. It is well that we should be reminded once in a while of the debt we owe them. Time is passing, and the war days are receding. The memory of the men who fell must be kept green. It is important, too, that the part played by the country and its people generally in the great crisis should be kept in mind. Canada's record is a proud one, and should give inspiration with which to meet future difficulties. The problems of peace are trifling in comparison, and a country which acquitted itself so well in that supreme test of its resources and endurance has no cause to doubt that it can play a large and distinguished part in the world's affairs in the least strenuous phases of peaceful development.—Edmonton Bulletin.

WORLD HAPPENINGS BRIEFLY TOLD

Belgium has resumed official relations with Mexico.

The fourth fort of the Warsaw citadel in which explosives were stored, blew up causing great damage in the city.

A Canadian record in long distance radio has been established by the hearing in Darlington, England, of a service broadcast from Calgary.

The Canadian travelling exhibition opened in Paris on Nov. 1, in the Orangerie of the Tuilleries, which was specially fitted up for the occasion. The exhibition will close on Dec. 15.

Struck in the face with a piece of timber thrown from a lathing machine, William Hunt, 46, an employee of Leigh mill, Victoria, was instantly killed.

The Fiji Government is considering the practicability of floating a loan of £2,000,000 in London for the promotion of Fiji industries and also for the development of the banana trade in Causland.

Captain Robert D. Foote, 72, former commodore of the Northern Navigation Company fleet at Sarnia, died at Fergus, Ont. Capt. Foote shipped before the mast on the schooner, Mountaineer, in 1868, at the age of 17, and was on the lakes for nearly half a century.

Memorial At St. Julien

Duke of Connaught Unveiled Monument Designed By Regina

At St. Julien in France, recently His Royal Highness, the Duke of Connaught, unveiled a monument in memory of the 12,000 Canadians who fell in the heroic struggle which took place at that spot.

The monument, which is 25 feet in height, and built of British granite, was executed by Mr. F. Chapman Clemenceau, of Regina, Sask. It is one of the successful designs in a Federal competition, and replicas are to be erected on six other sites in France and Belgium.

Regulate the Bowels And You'll Be Healthy

To Overcome Constipation and Keep the System Free of Wastes You Need

Price 25c at all dealers.

Excellent Christmas Service To The Old Country

The Canadian Pacific have made available a list of superb steamships and an unusual number of sailings for Christmas travel to the Old Country. In connection with these sailings special tourist sleepers are being operated from Edmonton, Saskatoon, Calgary, Moose Jaw, Regina, and Winnipeg, direct to the ship's side at West St. John, thus giving a thorough service with the only change or transfer being from train to steamer.

The December sailings for which these cars will be operated are: S.S. "Montclair," December 17th, to Liverpool; S.S. "Keltia," December 19th, to Southampton; S.S. "Montclair," December 19th, to Liverpool; and S.S. "Marion," December 19th, to Glasgow.

In addition to the through tourist sleepers, a special train will also be operated for the sailing of the S.S. "Montclair," December 14th. This train will leave Winnipeg 9:50 a.m. Tuesday, December 11th. Special cars from western points will be attached to this train for operation through.

Booking should be arranged early in order to secure the best accommodation, and any Canadian Pacific Agent can make full arrangements. — 22-23

Norwegian Vessels For Lake Trade Operated by Canadian companies a fleet of Norwegian steamers is reported to have crossed the Atlantic and will engage with Canadian steamers in getting Western Canada's grain to the eastern market. There are said to be eight vessels in the fleet.

The Aim of Life

Necessity of Broad Winning is Not Only Object

The great thing is to tackle life in a spirit of adventure. The main object is not to win, it is to live. Winning or losing is an issue beyond human control. Effort is not. Nothing is easier than to identify the life in which effort and aspiration of some sort are present. They light it up as the sun a landscape. Broad winning is only the body of life. The soul of life begins in whatsoever, plus quantity of voluntary effort, is added over and above the sheer necessity of bread winning.—Boston Globe.

Women and Asthma. Women are numbered among the sufferers from asthma by the countless thousands. In every climate they will be found, helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy. Dr. J. D. Kellogg's Asthma Remedy has brought new hope and life to many such. Testimonials, sent entirely without solicitation, show the enormous benefit it has wrought among women everywhere.

Canada's Bill For Sickness

Yearly Amount is \$300,000,000 Counting Loss of Time

A noted authority upon public health is reported recently as saying that \$300,000,000 is Canada's yearly bill of sickness. The inference that the doctors are getting rich, however, is repudiated by the statement that members of this worthy profession receive only about ten per cent. of the amount. Loss of time and other causes make up the balance. He goes on to say: "A great deal is properly said about fire losses in Canada. Last year these totalled \$50,000,000, just one-sixth of the cost of sickness. Such figures surely illustrate the great need of preventing epidemics, working for the extermination of communicable disease germs, teaching people to take care of their health and the health of the babies."

An Oil without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting.

Girls Successful

Of 526 girls that have been brought to Saskatchewan from the British Isles since 1920 to June 15, 1922, only six have returned overseas, and of the sum of \$45,113.50 advanced to the girls the sum of \$42,850.59 had been repaid up to June 15, 400 having repaid their loan in full and the balance of 126 paying all but the sum of \$2,426.67. The girls came to Canada to position as household workers.

Swedish pansanry often wear finger-rings made of the wood of the mistletoe to guard against illness.

Minard's Liniment For Cures

Heat Melts Alpine Glaciers

Heat in the Alps has been so great that glaciers have been melting and causing avalanches. Mountain streams have been blocked by these avalanches with disastrous results to factories and electrical works depending on the power of the water for their kinetic energy.

If Miller's Worm Powders needed the support of testimonials they could be got from mothers who know the great virtue of this excellent medicine. But the mothers will speak for themselves and in such a way that there can be no question of them. They act speedily and thoroughly, and the child to whom they are administered will show improvement from the first dose.

The Watch Winds itself

British inventors have perfected a self-winding wrist watch. The constant movement of the hand of the wearer effects the winding by means of an oscillating slide in the movement, fitted with bearings which it is claimed, prevent over-winding. The watch, the inventors say, will stand the hardest day's golt.

COOK'S REGULATING COMPOUND

A safe, reliable, regulating compound for the bowels. It is a sure cure for all kinds of constipation. Do not suffer from Piles. Use Piles.

After Every Meal WRIGLEYS

A good thing to remember. Sealed in its Purify Package. THE FLAVOR LASTS.

Railroads In Persia

Unpopular at First for No One Wanted to Go

Railroads are unpopular in Persia at first for no one as yet in a hurry in that eastern land. A traveler, being seized with a desire to stop, not only halfway while the train was in motion, with the result that he was severely injured or killed. The rest of the passengers were furious at this, and when they reached their destination dragged the driver—a Belgian—off his engine, and after having tied him up beat him within an inch of his life as being an agent of Sheilan (the devil) for the massacre of true believers.

Scotch Boys For Canada

The farm of Craighall, near Paisley, Scotland, was formally opened recently by Dr. Cosser as a training centre for city boys who desire to go on the land in the overseas dominions. Since last autumn 90 boys have gone from the farm to Canada.

MRS. ROSE CRAIG

SPARKLING EYES FOLLOW GOOD HEALTH

Toronto, Ont.—"From the time of my earliest childhood I had always heard my mother speak in highest terms of Dr. Pierce's Favorite Prescription for women's ailments, so it is not at all strange that after I married and had backaches, nervous spells and other diseases that I should remember what my mother had always said of this prescription, and I found it relieved me of my aches, pains and nervousness. It gave me renewed health and strength and so greatly benefited me that I have no hesitancy in saying that Dr. Pierce's Favorite Prescription is absolutely perfect as a tonic and nerve for women who are ailing or nervous. You'll soon feel better if you obtain this Prescription of Dr. Pierce's at your nearest drug store, in tablets or liquid, or send for Dr. Pierce's Laboratory at Buffalo, N.Y., for trial packages. Write for free medical advice."

CO-OPERATIVE MARKETING

THROUGH a co-operative arrangement with the E. H. Heath Co. Limited, publishers of the Canadian Power Farmer, we are enabled to offer that farm magazine and this weekly for one whole year for the price of this weekly alone. This applies to either new or renewal subscribers.

The editorial programme of the Canadian Power Farmer for 1924 includes:

1. A series of articles on the cow and its proper use
2. Tree planting and windbreaks, or how to beautify the farm and pocket
3. What is the cost of raising a couple of, wheat?—as sold by actual farmers
4. Is the tractor a necessary part of a farmer's outfit?—actual farm experience that answers the question.
5. Co-operative marketing can it be successfully applied to a grain-raising country?
6. Suggested ideas for the betterment of farming conditions in Western Canada
7. How much equipment is the farmer justified in paying for?—actual half and section farmer?—as sold by actual farmers

In addition to the above, each issue will contain five, reasonable, general articles, short stories, household and boys' and girls' departments etc.

As this is a special offer, we would advise that you take advantage of it as soon as possible.

Send all subscriptions to this paper.

Stony Plain and District.

Those who wish to vote on Nov. 5 should lose no time in seeing that their names are on the voters' list.

Everyone will be pleased to hear that one of those ever-welcome dances will be held at Comet Schoolhouse, Friday Nov. 9.

A popular dance will be given at Mr. W. C. Williams' new granary, one half mile north of the Holborn School, on Friday evening, October 26th. Everybody welcome. Ladies please bring baskets.

While the Dorenbush threshing outfit was moving on Monday morning to the John Scholz farm the separator slipped off the road and stayed there till the next morning.

Councillor Brox has just completed repairs to the bridge near the Wimer farm, at Glory Hills, while several broken culverts were also attended to. The heavy threshing outfits cruising around this fall are putting the roads to a severe test.

I can provide you with a Life Assurance Policy to suit your particular needs. R. B. Brooks, local agent for The Sun Life Assurance Co.

M. Mocklenberg, the eyesight specialist, will be at Royal Hotel, Saturday, Nov. 3.

Another Threshing Outfit.

Mike Ducholke, the enterprising implement agent, has sold another threshing outfit—this time to Pete Kulak. The rig is a duplicate of the one sold Fred Kreye—15-30 tractor and 28-36 McCormick Deering separator. Mr. Kulak had formerly been in partnership in a threshing outfit with Ed Barth, to whom he sold his share. Mr. Ducholke had the outfit brought out from Edmonton with his usual despatch, and has proved very satisfactory.

Hard on the Phone Wires.

The threshing outfits in their moves around the country are credited with doing damage to phone wires where these cross the roads. The trouble seems to be with those threshers who do not lower the buggers on top of the machines, as these catch the wires and pull them down the poles.

Stony Plain Constituency W. I. Conference.

The Stony Plain Constituency W. I. conference Friday Oct. 19 1923 opened at ten thirty a.m. in the Methodist church. Number present 13, after the singing of O Canada the constituency convenor Mrs. W. Short of Woodbend read the Club Woman's creed. Mrs. Kowensky read the splendid report of the work done by Stony Plain W. I. during the past year and Mrs. Belle Isle read the report from the Woodbend W. I. In the absence of a delegate from Brighwood W. I. the convenor read their report which had been mailed and which told of the work done by the branch. A very profitable question period and round-table conference followed in which uncertainties regarding reports on standing committee subjects were cleared up and suggestions for programs and roll calls given. The session adjourned at 12 for lunch. The afternoon session opened at 2 o'clock with the convenor in the chair, number present 37. After the singing of O Canada Miss Gubielle read the report of work done by Winterburn W. I. Mrs. Wood, constituency chairman of committee on legislation read an excellent report of work done in that line. Mrs. Short Jr. then delighted all with a couple of pianoforte selections. Mrs. Jas. Malloch read an article entitled Women's Institutes and their working motto in England. This article told in a concise and splendid manner of the great work accomplished by institutes in England. Mrs. J. F. Clarke in a very capable manner extended greetings to all, and expressed the desire that all would thoroughly enjoy their stay in Stony Plain. Mrs. F. E. Wilson sang 2 beautiful solos which were greatly enjoyed by all present. Mrs. MacGregor Smith, Provincial convenor of committee on household economics, was present and gave a very interesting and helpful talk on Foods. Mrs. C. E. Clarke gave great pleasure to those present by playing 2 most beautiful piano selections. Mrs. MacDonald gave two humorous readings in her usual charming manner. Mrs. Clyde MacDonald from Edmonton gave an excellent address on Prohibition urging all institutes to vote for A in the coming plebiscite. Delightful refreshment were served by Stony Plain W. I. members, following which the election of officers took place, resulting as follows: Constituency convenor Mrs. Wm. Short of Woodbend; chairman of committee on child welfare and public health Mrs. P. Wild of Winterburn; chairman of com.

on education and better schools Mrs. McDougall of Woodbend; chairman of com. on legislation Mrs. R. E. Wood, Stony Plain; chairman of com.

LOST—Bay Horse, 4 years, no brand, hind legs white. Mike Jakmwa, Carvel P.O.

on Household economics, Mrs. Agar Jr. of Woodbend; chairman com. on agriculture, Mrs. Agar Jr. of Woodbend; chairman com. on Canadianisation and national events, Mrs. F. W. Landy, Stony Plain. Owing to the afternoon being so far spent and the members of the institute institutes having to make the drive home, Mrs. Gates refrained from giving her paper, promising to visit each institute separately and give them her paper. The meeting closed by singing the National Anthem.

The Prohibition Vote.

Moderationists claim that they do not want the open bar again; that 5 per cent. of the people of Alberta would vote for it. Why not? Simply because liquor was sold and drunk there, with all its attendant evils. And liquor will be again sold and drunk in "licensed premises" in public saloons, in the open bar, as surely as Clause D arrives.

If prohibition is a failure in Alberta (which it is not) Government sale is doubly a failure. In B. C. where "bootstrap" lands as much liquor as the Government stores, where crime has doubled, police costs increased twenty per cent. and business failures three times what they were under prohibition.

For your boy's sake, for your neighbor's sake, do not vote for Clause D.

C. L. PHILLIPS.

Here and There

A grant of \$25,700 to the Salvation Army to aid Canadian emigration work in Great Britain has been authorized by a Canadian Order in Council.

According to information received by the Canadian Pacific Railway at Winnipeg, sixty-thousand bushels of wheat to the acre has been harvested on the farm of T. M. Ballantyne, three miles north of Lacombe, Alberta. The wheat graded No. 1 and weighed 64 pounds to the bushel.

Weighing 3,370 pounds, a steer, said to be the largest ever received in Winnipeg, arrived at the union stockyards from Wainwright, Alberta. It was sold for \$250, the highest selling price of any steer in Winnipeg since the war.

The Canadian Pacific S.S. "Barton," which arrived in Liverpool on September 6th, put up what is considered to be a record in the speedy discharge of cargo when she sailed the following day, Sept. 6th, at 7 p.m., having discharged over 2,000 tons of cargo.

It is announced that the Canadian Pacific Railway will increase the size of its irrigation headgates at Kimball, in southern Alberta, by 50 per cent in anticipation of an increase in area of 40,000 acres in the Lethbridge district. Water will be turned into the ditches of the Lethbridge Northern project, it is expected, some time this fall.

Buffalo steak will be abundant in Canada this fall. A herd of 2,000 surplus Buffalo wandering on the range in the National Park at Wainwright will be slaughtered by an Order-in-Council, and the meat and skins sold. For several years the Government has paid special attention to the preservation of the buffalo and the work has been so successful that the National Parks are now overstocked.

At a dinner given in his honor by the Vancouver Board of Trade, E. W. Beatty, President of the Canadian Pacific Railway, announced that the Company proposed immediately to add two large modern steamers to its coast fleet in order to take care of its increasing tourist traffic over the Company's Pacific Coastal lines. He also announced the early completion of a new pier at Vancouver at a cost of several millions.

There have been large increases in the number of pure bred animals in Canada during the decade between the last two censuses. The increase in the number of pure bred horses between 1911 and 1921 was 44 per cent; of cattle, 38 per cent; of sheep, 75 per cent; and of swine, nearly 44 per cent. The number of pure bred horses in the Dominion in 1921 was 47,793; cattle, 264,656; sheep, 92,645, and swine, 51,117.
